MESSAGE FROM THE EXECUTIVE DIRECTOR

Dear County Leaders,

As we celebrate the 100th anniversary of the New York State Association of Counties (NYSAC), I invite you to use this *2025 County Directory*—an essential resource for connecting with county leaders across New York State. This is the only official NYSAC publication providing a comprehensive database of elected and appointed county department heads from every county.

For the past century, NYSAC has been committed to supporting and strengthening county government. This directory is just one of the many ways we provide value to our members—along with hosting three major statewide conferences, producing news magazines, weekly newsletters, a weekly podcast, daily news updates, and conducting ongoing research and advocacy to address county concerns.

The connections and communication this directory fosters are essential to NYSAC's most enduring principle: unity. For 100 years, our association's success has come from our ability to bring all counties together—regardless of size, region, or political affiliation—around the shared interests of our diverse state. By working together, we accomplish more than we ever could alone.

As we mark this milestone year, I encourage you to use this directory—and all of NYSAC's resources—to strengthen your work and enhance the services you provide to your communities. Here's to a century of collaboration and a future of continued partnership.

Sincerely,

Stephen J. Acquario
NYSAC Executive Director

MESSAGE FROM THE PRESIDENT

Dear Colleagues,

I'm honored to present to you the *2025 NYSAC County Directory* amid our great association's centennial anniversary!

For a century, NYSAC has brought counties together to share knowledge, collaborate, and advocate for the needs of our communities. It is my hope that you will use this Directory to strengthen our county connections. It was designed to be a vital resource to help you engage with your fellow county leaders across our great state of New York.

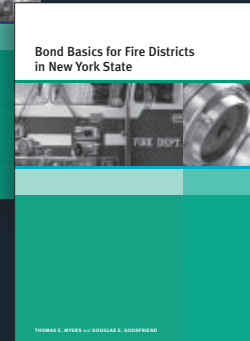

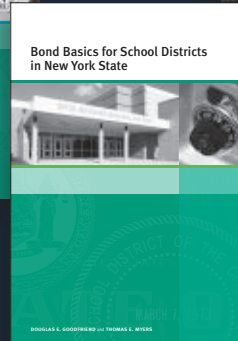

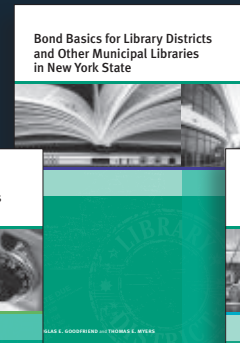

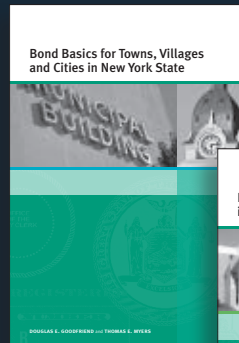

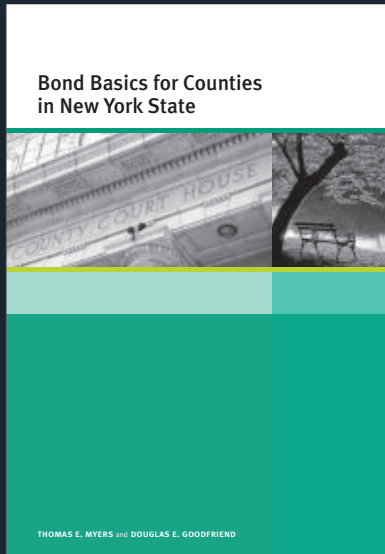

While NYSAC has changed significantly over the last 100 years, our guiding principles of uniting the county voice and fostering excellence in county government have held constant. As your president, I am committed to strengthening that legacy as NYSAC begins its second century of service to counties. Together, we accomplish far more than any county could alone.

As we move through 2025, we will undoubtedly face new challenges. But if history has taught us anything, it's that when county officials work together, we achieve extraordinary results for the people we serve.

Let's continue to build on a century of collaboration and make the next 100 years even stronger.

Sincerely,

Hon. Benjamin Boykin II
NYSAC President
Westchester County Legislator

CUSTOMER SERVICE ☆ KNOWLEDGE OF MUNICIPAL OPERATIONS ☆ RISK MANAGEMENT

**Serving 1,000+
Municipalities**

NYMIR

Insuring your municipality is our top priority

**Insuring our
own futures**

NYMIR is a licensed, regulated insurer owned by its policyholders - over 1,000 municipalities across New York State.

Over the past 30 years we have built a strong, fiscally responsible company providing property and casualty insurance to counties, cities, towns and villages, both big and small.

Customer service, knowledge of municipal operations, as well as risk management and aggressive claims defense are the cornerstones of the company—not shareholder returns or corporate earnings targets.

One of NYMIR's strengths is reliability. We will not waver from our dedication to support our members with the best coverages, claims handling and risk management services possible.

Our members rely on us for three simple reasons: our conscientious experts are always there for members; we have maintained stability in a volatile insurance market; and we have consistently provided high quality insurance and responsive services that meet the unique needs of New York State's local governments.

Check out our website to see why we're the top ranking insurance program for local government in New York.

Eliminate the administrative hassle with our **Lead Public Agency** model.

PPP values transparency and the trust of its participating cooperative members. Contracts between the Lead Public Agency (LPA) and suppliers are made public, and are scrutinized by an advisory of procurement professionals and public sector peers.

Public sector purchasing agents and procurement officials gain access to a cooperative uniquely designed to their needs and circumstances. Navigating the complexities of purchasing requirements and due-diligence is streamlined by a lead public agency.
